About Us

Certiway Conformity Surveying & Appraisal Services LLC is an independent inspection, surveying, and conformity assessment company providing reliable, accurate, and internationally recognized services to support regulatory compliance and global trade.

We work closely with exporters, importers, manufacturers, and traders to verify quality, quantity, and conformity of goods in accordance with applicable international standards and country-specific regulatory requirements. Our services help clients reduce risk, ensure compliance, and facilitate smooth cross-border trade.

Driven by professionalism and integrity, Certiway is committed to maintaining the highest levels of impartiality, accuracy, and transparency across all assignments. Our experienced team and structured processes ensure consistent service delivery and dependable results for every project.

Our Mission

To deliver independent, accurate, and timely inspection and conformity assessment services that support regulatory compliance, enhance supply chain confidence, and enable seamless international trade.

Our Vision

To be a trusted global partner in inspection and conformity assessment, recognized for technical excellence, integrity, and customer-focused service delivery.

Agricultural Services

Certiway provides independent inspection, surveying, and testing services for agricultural commodities to ensure quality, safety, and compliance with international trade and regulatory standards. Our services help exporters, importers, and traders minimize risk, prevent losses, and maintain product integrity throughout the supply chain.

Agricultural Services

We conduct pre-shipment, loading, discharge, and condition inspections to verify quantity, quality, packing, and labeling of agricultural goods. This ensures shipments meet contractual specifications & regulatory requirements.

Draft Surveys

Our draft survey services accurately determine cargo weight during loading and unloading operations at ports, warehouses, and storage facilities, ensuring transparency and dispute-free transactions.

Fumigation Services

Certiway oversees and verifies fumigation processes to control pests and ensure compliance with importing country regulations, safeguarding cargo quality and acceptance at destination ports.

Physical & Chemical Testing

We coordinate physical and chemical analysis of agricultural products to verify moisture content, purity, contamination levels, and compliance with international standards.

Stockpile Monitoring

Our experts monitor agricultural stockpiles to assess condition, quantity, storage safety, and loss prevention, ensuring long-term quality preservation.

Minerals and Metals Services

Certiway offers specialized inspection, sampling, and analytical services for minerals, metals, and bulk commodities, supporting mining companies, traders, and industrial clients with accurate and reliable data.

Draft Surveys

We perform precise draft surveys for bulk minerals and metals to determine cargo weight and minimize discrepancies during shipment.

Field Services

Our field inspectors provide on-site supervision, verification, and reporting at mines, ports, and warehouses to ensure operational accuracy and compliance.

Inspection, Sampling & Analysis

We conduct systematic sampling and inspection of minerals and metals to verify grade, composition, and quality as per contractual and regulatory standards.

Laboratory Outsourcing

Certiway coordinates with accredited laboratories worldwide to deliver reliable analytical results while maintaining transparency and impartiality.

Metallurgical Testing

We support metallurgical analysis to assess material properties, composition, and performance, aiding quality assurance and production decisions.

Mine Site Laboratory

Our on-site laboratory solutions enhance operational efficiency by delivering timely and accurate testing directly at mining locations.

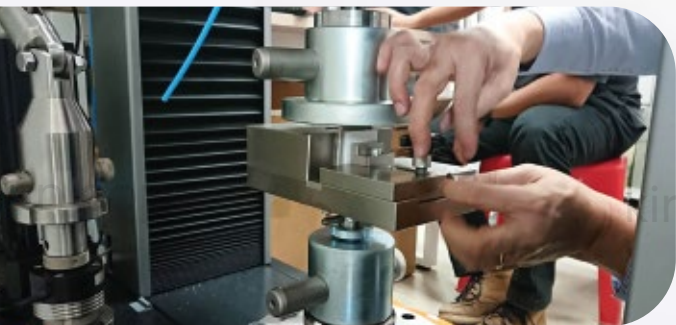

Weighing Services

We verify weighing operations using calibrated equipment to ensure accuracy and compliance during loading, unloading, and storage activities.

Conformity Assessment & Regulatory Compliance

Certiway delivers end-to-end conformity assessment and certification support, helping manufacturers and exporters access global markets smoothly while meeting all regulatory requirements.

SABER (Saudi Product Safety Program)

We assist with product registration, testing coordination, and issuance of Product and Shipment Certificates of Conformity for Saudi Arabia.

FASEH (SFDA Import Clearance Platform)

Our services support food and non-food product compliance with SFDA regulations for seamless Saudi import clearance.

IECEE Certification Services

Certiway facilitates IECEE CB Scheme compliance for electrical and electronic products entering international markets.

SASO Compliance & Certification

Our services support food and non-food product compliance with SFDA regulations for seamless Saudi import clearance.

SFDA Regulatory Compliance

We guide clients through SFDA technical and safety requirements for food, cosmetic, and regulated products.

Kenya PVoC & African PVoC Programs

Certiway supports Pre-Export Verification of Conformity programs across Africa, ensuring compliance with destination standards before shipment.

SONCAP Nigeria

Complete support for Nigerian SONCAP certification, including product testing and conformity documentation.

Iraq COI & CoC / Qatar CoC

We facilitate Certificate of Inspection and Certificate of Conformity services for Iraq and Qatar in line with national regulations.
